25 YEAR RE-REVIEW

Office of the DD/S&T

TO: Carl,

SUBJECT:

REMARKS:

Here is a memorandum to Col. White which outlines our plan for dealing with the "Satellite Systems Requirements Study" which he initiated two weeks ago. I discussed this with him this morning, and he concurs in the scope that we propose. Attached to the memorandum are lists of the study teams which have been organized and the scope of the subject matter which each team is to address.

Team reports are to be completed by 27 February.

Don Steininger
